## EXPERIENCE

### Senior Virtual Sales

#### FIS Global

2018 - 08/2020 Orlando, FL

FIS Global is the leading Financial Technologies producer in the world. I worked with an experienced team to maximize company revenue and customer satisfaction.

- Managed thousands of client accounts
- generated contracts, negotiated terms, calculated costs
- Sold in a creative fashion that generated approximately \$1.5 million in revenue

### UCF Full Stack Bootcamp

#### University of Central Florida

Orlando, FL

UCF's full-stack web development bootcamp is an intensive 3 month full time bootcamp to learn the hard basics of web development

- Managed projects on a timeline
- Worked with a team virtually to create fully functioning web applications

JavaScript

HTML5

CSS

MySQL

### Database

MySQL

Mongodb

Firebase

### Tools and Libraries

React

Node

Bootstrap

Git

jQuery

API

Express

Visual Studio

MaterialUI

## PROJECTS

### Nippon Media

Nippon Media is a passion project that me and my partner put together for the final project of my bootcamp. We wanted to put together a website where people who are unfamiliar with anime or are new to it can research shows and learn about them to see if it's right for them as well as links to watch the shows. Users can save their favorite Anime's and Manga's to their profile.

## TRAINING / COURSES

---

[React Courses](#)

[Angular Courses](#)

## SUMMARY

---

My resume may be short but it speaks volumes. I am true to Orlando and creating and problem solving is where I belong. I am a dedicated learner ready to take on any challenges in front of my path to success.

## PROJECTS

---

### Peckish

Peckish is a simple site where you can find random recipes for food or drinks with specific ingredients.
